

Celebrating 100 years of innovation, Carrier Corporation, a subsidiary of United Technologies Corporation (NYSE:UTX), is the world's largest manufacturer of air conditioning, heating and refrigeration equipment for commercial, residential and transportation applications.

**Sales:** US\$ 8.895 billion in 2001

**Global Employment:** 42,627

**Founded:** 1915, New York

**Operations:** Carrier has a worldwide network of hundreds of distributors and thousands of dealers who sell, install and service Carrier products in more than 171 countries. Carrier products are designed in nearly 20 key engineering centers and manufactured in 101 facilities spread across six continents.

**Key Products:** Product lines include air handling units, compressors, condensers, unitary packaged and split system air conditioners, transport and commercial refrigeration equipment, room air conditioners, packaged terminal air conditioners, central station air conditioners, hermetic absorption and centrifugal water chillers, open drive centrifugal chillers, reciprocating air and water cooled chillers, dehumidifiers, single packaged and split system heat pumps, electronic control system and air cleaners.

**A few places Carrier can be found:** Created the climate control systems that protect the Sistine Chapel and historic documents at the Library of Congress. Carrier is cool enough to provide the air conditioning system for the Rock and Roll Hall of Fame & Museum in Cleveland, Ohio. Carrier also designed the unit and display that "Juanita," a 500-year old Inca mummy, is housed in.

**President:** Geraud Darnis

**Parent Company:** United Technologies Corporation designs and manufactures high-technology products for the aerospace and building systems markets. The Hartford, Conn.-based corporation's best-known products include Carrier air conditioning units, Otis elevators, Pratt & Whitney aircraft engines, Sikorsky helicopters and Hamilton Sundstrand aerospace systems. Other UTC companies include International Fuel Cells (IFC) and a world-class Research Center.
